

# iStripperQuickPlayer Guide

If you are running Windows 10/XP, ensure that you have the Segoe Fluent Icons font installed:

<https://aka.ms/SegoeFluentIcons>

Use the File->Reload Models menu (F5) to refresh the list of cards whenever you have downloaded new ones - you may need to restart iStripper first to force it to write the list of cards to disk.

The QuickPlayer will watch for iStripper changing clip and will then check that it matches the currently active filters - if it doesn't, the QuickPlayer will select a new filtered clip randomly.

The screenshot shows the iStripperQuickPlayer interface with the following annotations:

- Top Bar:** "Cards Shown: 143/143" (The number of cards that match the current filter). "Sort cards" button. "Open filter settings" button. "Apply a previously created filter" button. "Search by model/show/tag/description" (You can use and/or/! eg "big boobs and glasses").
- Main Card Grid:** A grid of 25 cards. Annotations include: "Right click on a card to rate it or set it as a favourite", "Double-click to play a random clip from the card (that matches clip filter)", "Card is XXX", "This card is currently playing".
- Right Panel:** "Now Playing: Liya Silver, Practical Works (Clip 3)". "Click this label to select this card in the card view". "Next Clip" button. "Show Model" button. "Only show clips above this size" (Size: 25 MB). "Filter by clip type, eg 'glass' or 'pole and table'". "Filter by clip hotness". "Enter user tags here (separate with commas) - you can then filter/search on them". "Age: 20", "Stats: 35/23/4/34", "CardType: iStripper XXX", "Res: 4k", "Rating: 4.52". "Tags: big boobs, duo, high heels, piercing, porn, shaved, skirts, small tits, stockings, student, tattoo, trimmed". "User Tags: natural, pale, dildo, long socks, tattoos, ponytail, schoolgirl, perky".
- Bottom Panel:** "Liya Silver, Practical Works (Clip 3)". "Liya Silver, Practical Works (Clip 3)". "Liya Silver, Practical Works (Clip 3)". "Liya Silver, Practical Works (Clip 3)". "Liya Silver, Practical Works (Clip 3)".

The screenshot shows the iStripper filter settings window with the following annotations:

- Search for tags and user tags - use or/and/! eg. "trimmed and big boobs and stockings":** A text input field.
- Tags:** A list of tags with a search bar and an "Apply" button.
- Filter based on iStripper rating:** A slider from 1 to 10.
- Filter on bust size:** A slider from 1 to 10.
- Filter on age of model:** A slider from 1 to 10.
- Filter on your personal rating:** A slider from 1 to 10.
- Show Date:** A date range selector from 01/01/2007 to 27/03/2022. Annotation: "Only show cards released between these 2 dates".
- Filter on type of card:** A list of card types: iStripper Classic, Desk Babes, VG Classic, iStripper, iStripper XXX, Normal, Special. Annotation: "Show normal/special event cards".
- Buttons:** "Save Default", "Delete Filter", "Save As...", "Revert", "OK".
- Bottom Annotations:** "Save as the default settings that will be used when program loads", "Save these settings with a new name. You can then select it from the drop down on main window", "Restore settings to when this window was opened".
